-
- We strive to ensure that all materials used in our mattresses are fully recyclable, environmentally friendly, hypo-allergenic, moisture resistant and breathable, earth friendly, vegan friendly, ensuring that NO chemicals or fire-retardant sprays are used.
 - All mattresses come with care labels.

Natural Fibre

- The inside mattress is a Cocolok fibre at 7.5cm in depth, which helps to support your baby.
- The layer for comfort is a venti wool, being hypo-allergenic and temperature regulating, is added to both sides of the Cocolok fibre, making the mattress an overall depth of about 12cm.

Luxbond

- Thermal bonded polyester wadding, which has a very low moisture regain.
- This mattress insert is designed for a softer support or can be turned for a medium support, with one side being a little firmer than the other.

Material

- The inside cover is a light grade corovin cover to enclose and protect the mattress.
- Top cover of the mattress is a soft pinsonic weld coroquilt gusseted design which can be unzipped and removed for washing.
- Both covers are breathable and water resistant.
